## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 3-4 are rejected under 35 U.S.C. 102(b) as being anticipated by Miller et al. Miller et al discloses the steps of placing an object on the torso of a user while lying in a supine position, engaging the object with the thigh and arms and contracting (col. 11, lines 21-25; fig. 11-12). The device has a first surface, second surface and a resistance between the two surfaces which provides a resistive force.

### ***Conclusion***

3. Claims 2 and 5 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. Claims 6-12 are allowed. Any inquiry concerning this communication or earlier communications from the examiner should be directed to L Amerson whose telephone number is (703) 306-5576.
